As the crack cocaine epidemic spread, James Beasley Jr. was at the forefront, making the drug accessible and affordable to the oppressed masses. Determined to forge his own path, he founded a powerful crew, the B-Team, to rival the A-Team established by other family members. This audacious move cemented his status as a formidable figure in the criminal world.

James Beasley Jr. is now an Author, Film Maker, Entertainment Producer and successful Real Estate Investor. His memoir takes readers on a journey from the gritty floors of housing projects to the lavish suites of penthouses, from rundown drug dens and street wars to secret stash houses and million-dollar homes. His story intersects with cultural icons, from attending the Grammys with the Jacksons to witnessing the birth of Death Row Records. This is the untold and unforgettable tale of a true baller.

“A hauntingly beautiful docudrama that unveils the secret life of a gifted Chinese QiGong Master whose childhood unfolded under the harsh restrictions of the Cultural Revolution. It’s a story of ancestral wisdom, generational trauma and the quiet, powerful act of reclaiming one’s true path.”
